OLD AGE PENSIONS

Victor Berger in his speech supporting old age pensions said: Everybody in America readily knows why soldiers are entitled to pensions. Soldiers render ser vice on the field of battle considered dangerous to life and limb. But very few people realize that the number of wage earners killed and injured on the railroads mines and factories, and other industries in our country, is approximately equal to the number of soldiers killed and wounded in any one year of our great civil war, with all its terrible battles. The work of the soldiers of industry is infinitely more necessary than the bloody work of the soldiers on the battle field. Most of the labor performed must be continued every day and every hour, or our civilization would stop. The aged worktherefore, a claim on society that is even better than the claim of the soldier. The average carnings of the wage working class in this country is about \$400. It is absolutely impossible to save anything for old age on such a wage. Every toiler produces more than he is paid, otherwise he would not be employed. It is a condition of the capitalist order of society that the employer must get the lion's share of the product. The old age pension bill which I have introduced is, therefore, a measure of simple justice. Nearly every so-called civilized country on the globe has such a law, except the United States. Under the terms of my bill the cost of this measure would approximate \$347,000,000 yearly. This sum may be staggering to some good folk who believe in cheap government and in everybody taking care of himself, but if our nation can pay yearly \$131,000,000, for a navy, \$95,000,000 for an army, and \$155,000,000 for pensioning war veterans, a total of \$381,000,000, it should certainly be able to pay an equal sum to pension its veterans of industry. Remember, that these destitute aged men and women have from their childhood aided in creating wealth which makes possible the payment of such large appropriations for the navy, the army and the war pensions. The old men and women are entitled to a living out side of the poor house and without the aid of private charity."
